

Beijing World Youth Academy

Academic Profile 2025—26

School Codes: IB World School 000791 / CEEB 694369 / SAT 74347

School

We are a private, independent, Chinese and English medium school located in Beijing, China. Founded in 2001, we have a K-12 student body of over 1,200. We have a large campus with spacious, modern classrooms and laboratories, sports fields, a running track, basketball courts, rock-climbing facilities, a swimming pool and indoor gymnasiums. Most of our students come from affluent, Chinese middle-class families, though we do also serve a small number of expatriate families, and practically all our students enter four-year university programmes upon graduation from our school.

Mission

Our school strives to provide members of our community excellent learning opportunities that incorporate critical investigation, exposure to different cultural perspectives and assessment against objective criteria. Our mission is to develop principled, open-minded thinkers who are capable of integrating with diverse international communities and who are empowered to shape their environs for the improvement of quality of life for themselves and others.

Programmes

We offer the following programmes at our school:

- IB Primary Years Programme (PYP)
- IB Middle Years Programme (MYP)
- Cambridge IGCSE Programme
- IB Diploma Programme (DP)

The IBDP is a rigorous, academically challenging two-year high school programme with courses that are roughly equivalent to analogous Advanced Placement (AP) courses. At its core are: Theory of Knowledge, a course in which students reflect on the nature of knowledge; the Extended Essay, a large, independent, self-directed research project; and Creativity, Activity, Service (CAS), which provides students opportunities to incorporate sports, extracurricular activities and community service into their high school experience.

Accreditation & Membership

High School Completion

We have two tracks available through which students may complete high school. Most of our students are registered for the full IB Diploma; a less demanding IB courses track is available for students who have external obligations, such as art portfolios or sports endeavours, or who would like to focus on particular subjects or on improving language proficiency.

Grading System

Our grading system is based on the IBDP grade descriptors, which can be roughly summarised as follows.

Grade	Mastery of knowledge, understanding and skills
7	Excellent
6	Very good
5	Good
4	Adequate
3	Partial
2	Superficial
1	Rudimentary

We do not use four-point grade point averages (GPA), however we can generate GPA conversions upon request.

Student Ranking & Information Shared

While we do not rank our students, we provide an estimate of the worldwide percentile full diploma students fall into based on their predicted grades and the worldwide grade distribution published in the most recent IB statistics bulletin.

In our counsellor letters, we mention which high school track the respective student is in. We also include a comment on how demanding the course selection is; for example, students who take four subjects at higher level (HL) instead of the usual three have a course selection that is more demanding than average. For full diploma students who do a literature course in a language other than English, the medium of instruction, we mention that they are eligible to receive a bilingual IB diploma.

Standardised Test Scores

Our school is an SAT test centre (74347) with permission from College Board to conduct SAT tests for our students. Around two thirds of the students in our 2025 cohort took the test; more than a half of those students who took the test received scores in the 95th percentile or above.

Class of 2025 SAT Scores (38 Students)

Recent Results

As a group, our student performance is typically better than the world average performance, often highly significantly so, across almost all subjects and levels. The following is a summary of the performance of full diploma track students over the years.

	2021	2022	2023	2024	2025
Candidates	56	48	56	52	56
DP Pass Rate	96%	94%	100%	96%	95%
Average	38.0	38.0	35.0	35.0	36.0
World Average	33.0	32.0	30.2	30.3	30.5

The following figure shows the IBDP courses taken by our class of 2025, the number of diploma students (n) who took each course, and the average grade received displayed within the context of a sampling distribution obtained by resampling from the respective subject's world grade distributions, which helps assess the significance of the differences from the world mean.
